Summary

Proactive and adaptable Computer Science student with strong foundations in software development, data-driven problem solving, and user-focused design. Experienced in customer-facing roles that developed communication, leadership, and teamwork skills. Recently built and deployed web applications, with growing expertise in front-end technologies, Next.js, and software project management. Passionate about applying technical and analytical skills to deliver scalable solutions in software engineering, data science, and machine learning.

Technical Skills

Languages: Python, Java, JavaScript, HTML, CSS, SQL
Frameworks & Tools: Next.js, Git, Vercel, VS Code, Pandas, NumPy, Matplotlib
Other: Data Analysis, Machine Learning (beginner), Problem-Solving, Agile Collaboration

Projects

Calculator App (JavaScript, HTML, CSS) 2024
- Built an interactive calculator with a responsive UI, improving front-end programming skills.
- Applied modular JavaScript functions for accuracy and performance.

Book Web Shop (HTML, CSS) 2025
- Developed an online bookstore prototype as a college project.
- Focused on user interface design, navigation flow, and product catalog organization.

Webpage with Next.js (in progress) 2025
- Creating a full-stack web application with server-side rendering and modern deployment.
- Completing Vercel certification to deepen knowledge of Next.js, React, and scalable web apps.

Machine Learning & Data Science Projects

Data Cleaning and Visualization (Python, Pandas, Matplotlib) 2024
- Processed and analyzed a real-world dataset, identifying trends and patterns.
- Created visualizations to communicate insights clearly and effectively.

Basic Predictive Model (Python, scikit-learn) 2024
- Built a linear regression model to predict outcomes from structured data.
- Improved understanding of supervised learning workflows and model evaluation.

Experience

Internship Trainee Aug 2025
Terramay, Évora, Portugal

Pharmaceutical Sales Assistant Sep 2023 – Mar 2024
Farmacias Ecu-Vida, Ecuador

Fertilizer Plant Operator Jun 2023 – Sep 2023
Organisk L.M., Ecuador

Education

Bachelor in Computer Science Sep 2024 – Present
Högskolan Kristianstad, Sweden

Course in Digital Marketing Sep 2023 – Jul 2024
Linköping University
